

Jena Hepler

My husband and I live South of the Twin Cities with our 4 busy boys and 2 dogs. I have spent the last 10 years working in the fields of probation, mental health and as a special education teacher. I love working with families and making a difference in peoples lives. I am so excited for this next chapter in my life working for AB&B services as a support planner. When I'm not working I enjoy spending time with my family, going on our annual summer vacation, camping and watching our boys play sports.
