

# *Christine Walker*

I have been with AB&B Services since March 2014. Prior to becoming a support planner I worked in patient services for 14 years and for 8 years I supervised reception staff at 3 clinics. Customer service and patient care have always been important to me. Client directed services was introduced to me by a dear friend as she cared for her son with disabilities. Watching their story unfold inspired me to join this amazing team and serve families in our communities. I am grateful for this opportunity and the families I work with everyday.
