

Deborah Peterson

My son was born with low muscle tone and physically developed very late. We started to see other signs and at 3 years old we found out he was non-verbal with Autism and has global delays. We were lost and did not know what to do. That is when we met a team member on AB&B services. When I joined the team it was an obvious choice. I was going to be able to give back to families the knowledge I learned and the resources to help. With my free time I love to garden and relax.
