

Shaula Halberg

Empowering others to be a valued member of our community regardless of circumstances has been my life's work. Beginning at just 9 through adulthood supporting close friends, immediate and extended family members. I have went on earn a Master is Forensic Mental health to serve in positions including targeted mental health case management, waiver case management, policy workgroups, as well as being an MnCHOICES reassessor. In my free time I enjoy coaching soccer, enjoying the outdoors and I am currently learning ASL. I look forward to supporting your family soon!
