

Megan Solberg

I have been working with AB&B as a Support Planner since October 2019. I graduated from University of North-western St Paul with a degree in Psychology. Prior to AB&B, I worked at a home health care company in the customer service department, both as a representative and then manager for 8 years, specializing in medical insurance and authorizations. When I am not working, I enjoy spending time with my family, helping my hubby with DIY projects and LOTS of baking, even though I am celiac!
