

Christina Rosamond

I graduated in 2008 with a Bachelor of Science Degree in Social Work and went on to receive my Master's Degree in Social Work from Minnesota State University, Mankato. Most of my social work experience has centered around work with children and families. I have experience providing in-home services, including work as a PCA and Mental Health Practitioner. I have facilitated therapy groups for both youth and adults. When I'm not working, I enjoy spending time with my family and going on trail walks with our dog.
